Dear Government,

I'm 8 years old and I'm in Grade 3. And I like homeschooling because it's fun.

We get to learn about Space which I find really interesting. We get to learn about stuff we like. There are still subjects that I don't like but Mum chooses the best stuff for me to help me understand it. I understand maths much better now than I did when I was at school because I get to play games and practice it until I get it. I'm also better at spelling now because we do it every day and we put boring spelling into fun games.

I love homeschooling because we can go on lots of excursions and we can have a break from our school work whenever we need it. We can focus more after we have a break. I really like reading and we get to go to the library a lot and borrow lots of books.

I enjoy all the special classes we get to do and I like playing with my friends on different days each week.

Please let us do homeschooling the way we do it because I can focus more and get things easily done.

Thank you,
