Dear Committee Members,

Homeschooling gives me more time to catch up with friends and do activities with kids I like. I get to do more cool stuff instead of being told to learn specific things. I can meet kids that understand me and if I'm not well, mentally or physically, I can find my own space to complete activities in my own time.

If I was at school I would be scared of being bullied, I would be forced to make friends with kids in grade level and learn the same things other kids are learning. If I was at school I wouldn't be able to keep up with what the teachers are teaching.

Don't change my homeschooling and take away my choices.

 11yrs old

Dear Committee Members,

I like the freedom of learning what I want to learn and I'm not forced to learn things I don't want to right now. I am able to learn at the level I am at and not the grade I am at. I have more free time to do the things I like doing, like coding on the computer.

If I was at school I wouldn't be able to handle the loud environment and I would get barely any free time to learn things I like to learn.

Please don't take away my choice and my freedom in my homeschooling.
