---

Good morning,

My submission against the bill is as follows:

1. Parents are the first educators of our children. We know them best, how they learn, what motivates them.etc.
2. The government needs to review the current education system in light of the number of teachers and students leaving the system. It is old, outdated and isn't working for so many of our students.

My phone number is [REDACTED]

I ask that my contact details be redacted from my submission.

Kind regards,

Gaby Donnelly
