Committee Secretary
Education, Employment, Training and Skills Committee
Parliament House
George Street
Brisbane QLD 4000

Dear Committee Members,

I am writing to express my deep concern and opposition to the proposed changes that will undoubtedly have detrimental impacts on my family and, more importantly, on my grandchildren's ability to receive a high-quality education through homeschooling. I implore the committee to undertake more extensive consultation with homeschooling families before moving forward with these changes.

The proposed changes represent a significant oversight of the skills, capabilities, dedication, and knowledge that home-educating parents bring to their children's education. My daughter and son-in-law are deeply invested in my grandchildren's academic success and well-being, and it is disheartening to see our voices marginalised in the decision-making process.

As parents who home-educate, my daughter and son-in-law understand my grandchildren's unique needs and learning styles better than anyone else. They have carefully crafted educational experiences that prioritise individualised learning, critical thinking, and personal growth. The proposed changes threaten to undermine our ability to provide the high-quality education that our children deserve.

I urge the committee to reconsider its approach and to engage in meaningful consultation with homeschooling families to ensure that their voices are heard and their concerns are addressed.

Thank you for your attention to this urgent matter.

Sincerely,
Fiona Dailey
