Dear committee

My mum would describe me as being "10 years old and began home school half way through last year as I was not able to attend school due to being very overwhelmed. I enjoy learning and loved my friends but I was so sad and upset all the time. I have autism and very sensitive hearing, I simply can be over stimulated and not have the mental energy to sustain a day at school." Personally, I would like to add that I don't believe the school structure or curriculum should be imposed on families as not all children and families learn that way, thank you. [REDACTED].

Kind Regards

Dear committee

I don't feel safe at school or with school like learning. It makes me so angry and sad. I am happy at home with my family doing things that make me feel happy. [REDACTED]. 9 years old.
