Subject: RE Public health and other legislation (further extensions of expiring provisions) Amendment bill 2021
Date: Wednesday, 30 June 2021 10:46:46 AM

TO WHOM IT MAY CONCERN

I am writing today to express my concern with blatant disregard, abuse and wilful breaking of Australia's very constitution.

In relations to your Public health and other legislation (further extensions of expiring provisions) Amendment bill 2021

Where the State of Emergency may be continued-extended.

I do not give you permission to act on my behalf.

I do not give you permission to extend the abusive emergency powers bill.

I do not give you permission to lockdown government areas due too corona virus (covid19)

I do not give you permission to mandate or enforce vaccines that are ONLY authorised for use in a state of emergency.

You may not continue to carry out enforcements of state of emergency lockdown, masks & untested vaccines.

You may NOT impose a Vaccine passport in our country for national travel.

You are breaching so many human rights laws and our very constitutional rights.

I stand with God and our Queen against all Imposed restrictions and emergency use of force where related to corona virus (covid19)

Please refer to Australia's constitution section 117 and 109.

You may also NOT pass these bills without common media coverage for submissions.

There are people who are very aware of each time you pass these bills without common submissions taken into discussion.

You may NOT proceed as before without my permission.

I sign with my own authority as a Australian citizen against the abuse of our right to freedom and the right to input into such listed bills to be tabled and our voices to be heard.

Jack Sommers
