Subject: Objection to covid bill extension to 30 April 2022
Date: Wednesday, 30 June 2021 3:44:03 PM

I, Nathan Binns of [REDACTED] do not in any shape, form or way support this bill to be accepted for the extension of the covid bill till the 30th April 2022 as it's unconstitutional and affects the lives of every day peoples freedom, lively hood, mental state and wellbeing. The facts not being told in the media, the scare mongering, the blatant abuse of power by these snap lockdowns by our premier are a joke. Killing small businesses that have struggled to stay afloat after the last 12 months, increase in domestic violence, theft/break and enter increases, jobless rates that will follow as well and the fact it plunges the economy further into the black. Pushing a vaccine onto people that had more side effects/deaths than it does benefits. Pretty much telling people THEY HAVE to get it and bullying people into getting it with lies, forcing people to wear masks that are useless, unless clean shaven and individually face fitted they are useless. It's time the government listened to the people of the state who pay taxes and who's right it is to vote, and to have a say in what is voted on since it's our state as well. I hope this doesn't fall on deaf ears and is counted in this process against this bill. If there are any questions I can be reached on [REDACTED] and willing to answer any questions.

Kind regards
Nathan Binns
