---

Good afternoon,

My name is Judy Anne McKay ,

I am totally against this extension of emergency powers. It goes against our constitution, and our freedoms of human rights.

The government seeks to control everything we do, when there is no relevant need. We are not children, we can make our own medical decisions.

We don't want a government to tell us what we can or can't do.

I think this extension stinks. The public were not advised about this extension, nor consulted.

The health officer was not voted in by the public and has no experience with this type of so called disease. Yet she is being given power over us all . She doesn't have a shred of humanity in her, and the power has gone to the government's head.

I reject this authoritarian extension and say it is not needed.

I strongly object!

Judy McKay
