Public Health and Other Legislation (Further Extension of Expiring Provisions) Amendment Bill 2021

Dear Parliamentarian,

I write this letter to express my STRONG opposition to the proposed extension of the emergency powers in Queensland.

These measures are clearly being abused to serve power-drunk Premiers under the guise of 'protecting us'.

The irreparable damage these over-the-top lockdowns inflict on small businesses, individual mental health and the conditioning of our children is absurd.

Our freedoms are being violated. This is a very slippery slope.

Please speak on behalf of me and many others in rejecting and opposing these draconian tactics.

Regards,

Nathan Burns
