To the Economics and Government committee,

It has come to my attention that a bill to extend the State of Emergency in Queensland has been proposed, under Public Health and Other Legislation (Further Extension of Expiring Provisions) Amendment Bill 2021.

As an Australian citizen and resident of Queensland, I believe this to be a human rights issue and the government moves to violate my rights without due cause.

The COVID-19 situation as it stands in Australia is not justification for allowing the state government this level of power.

This extension should not go ahead.
