to whom it concerns

We the people find this absurd behaviour to be against our true constitution the red book
not the green book.

This so called Covid 19 has not been isolated and to submit the people to draconian
measures all for a maybe is cruel and only there for your control .

The day is coming where all of your tyranny will be out in the open

Stop this Lock down [REDACTED] and you can't force the people to masks or vaccines section
