Subject: opposition to the proposed extension of emergency

I Amanda Lenore Gore completely oppose the extension of the emergency measures and the proposed bills that HAVE NOT BEEN publicised as they should have been in a democracy....we have had nearly 2 years of this so called necessary 'state of emergency' and I do not understand why we are not informed of these proposals and the addition of some extra powers. Why is this bill not going to the health committee I would also like to know.

You have my email address from this email and my phone is [REDACTED]

When are our wishes going to be considered, I am no conspiracy theorist but i DO believe in free speech and the fact that WE elect our governments to give is a voice and I insist that this entire extension and expansion of it's powers be put up for public comment and discussion BEFORE it is mandated.

An emergency by definition cannot be extended into a permanent state. And i also wonder WHY it is being referred to the economic and governance committee as opposed to the health committee as it is for a health so called crisis.

Thank you - please respond to this email
