To whom this may concern

Why oh why are you extending these emergency draconian powers

The cases of Covid in Australia are minimal and have never increased to a deadly pandemic

The Australian Government is still allowing International Flight and Holiday Makers

We as Queenslanders are already struggling to keep our business open, we have suffered a tremendous loss in trade since March 2020 and it seems impossible at this stage to keep our heads above water.

The number of people suffering from Mental Illness due to these decisions is extremely higher than any Covid cases, in fact the deaths from the Experimental Trials outweighs the deaths from Covid.

The Fear is the pandemic and you are at forefront of this fear, people fear visiting the doctors and will be unable to seek medical help as they may have missed diagnosis. People cannot see their families and are isolated, when they do not need to be

The real pandemic will be the death toll from people unable to feed their families, this is insane of the Australian Government to enforce these measures.

Australia has managed to maintain a lead on this Virus with the Australian public working together to stay alert and follow Hygiene precautions.

You cannot continue to follow this madness
