**Subject:** Public Health Emergency Response Bill Extension to April 2022  
**Date:** Thursday, 1 July 2021 3:26:20 PM

---

I write to parliament asking why this bill is required to be extended. As we the voting public have been told by members of parliament for months that there will be a road out and we will learn to live with this coronavirus.

Extension of these powers without the public being made aware of the process nor any discussions within parliament or via the media of any form does not showcase the government performing under our democracy.

Why does this bill appear to be pushed through without the public's knowledge? Why is the government not wanting to be accountable to the democratic process which us the voters have put you into office and voted to put you back in for another term.

We're hard working people and we seem to have career politicians making up laws/legislation and extensions to this medical emergency with no transparency whatsoever to the very people who put you in your positions.
