---

Dear Sir/Madam,

I do not consent nor agree with the extension of the lockdown emergency powers until April 2022. I am witnessing numerous clients with PTSD, stress suicide of loved ones. The benefit of these measures doesn't outweigh the risk of a 99% chance of COVID-19, a man-made patented virus.

I can no longer help people when I can't help myself and keep an income while big Wesfarmers retail are one and making huge profits.

Hear the voices of the people.

From Adele Lorigan
