Hi,

This is sickening what you people are planning to do. We are having it hard enough as it is not being able to see our families for the last 4x years, now "You" the Government are making it even worse with this "hoax" to plan the great Reset!

You all are in cruisy positions earning big "coin" that 99% of you ain't even worth it! All just mates moving mates around all the time, whether it being Labor or Liberal. These "vaccines" are poison and there is millions of is who are wide awake knowing what is going on.

I do not give consent from my rights as a voter for what you "people" are doing unto us! So who gives you lot the right to do as you all please?? We need a referendum on these issues. We the people will decide what is good for us! Not you lot making our decisions. You do not own our freedoms.

[REDACTED]

Thank you Albert Green.
