Subject: We Say NO to extended Emergency Measures
Date: Thursday, 1 July 2021 8:56:56 PM

Attention ECG

We as the people of Queensland say No to any more extensions of Emergency Measures.

We do not trust you. You are lying to us all and your time is up.

There's No need for lock downs or tyrannical governance. It has gone to your heads. Dr Young needs to stand down Now!! She is making ridiculous decisions based on only a few cases. This virus is not proving to be deadly or even highly contagious so STOP locking people up!!!

AND STOP sending fear through our community. And STOP telling people to get a toxic vaccine injected into their bodies. It is not the only answer. You are lying to everyone and we are sick of it.

Let people get back to life and work. You are destroying peoples lives and ITS NOT OK!!!

The people voted you in. Now do what's right for the people!!!
