I absolutely and unequivocally object to you extending any further unsubstantiated emergency powers on our state and its people! Further extension of expiring provisions amendment bill MUST STOP!

It is DISGRACEFUL that you think you have ANY right to make people justify their identification at any venue little yet basic services like groceries!

How dare you disregard our elderly and disadvantaged any further! Remove this QR nonsense at once!

You should be removed from power and brought to justice for the atrocities you have caused since January last year. Not allowing people to see dying loved ones is absolutely unforgivable!

Premier, you declare your “Frustrations” at someone unvaccinated well HOW DARE YOU think you have any right to form judgement on what someone does or DOES NOT want in their bodies or cast dispersion on their right to choice!

I have absolutely no respect for what you are doing what so ever.

Katheryn Webster
