My name is Jordan Marks,

I would like to urge AGAINST an extension of the emergency order being renewed until April 2022. The Queensland people have had enough of these unlawful lockdowns and restrictions. They are having a profound effect on mental health for children and adults and always for a few cases and only ONE death in 2021!! This is a totalitarian response for a virus that has a 99.7% survival and recovery rate and we have had enough.

Thank you
