To the committee

Submission of Bill end date 7th July 2021

The people need to know about this new bill regarding States of emergency till 2022, mandating masks, border closures social distancing rules and quarantine mandates. Nowhere on the media has this information been freely given and it is against common law to not have it fully published and available to the people.

I for one do not agree with a state of emergency untill 2022 and what this implies for our future liberties.

There is no need for a state of emergency these are draconian measures forced upon us to instill control over we the people. I find it to be a real and certain threat to our rights.

I take my sovereignty and freedom very seriously and do not agree to this Bill that compromises natural law and our right to free passage.

Donna Lambert
