Dear Sir,

I would respectfully like to advise you of my total dissatisfaction that emergency powers have been extended until April next year.

I would like to advise that this is an overreach of Government! The lockdowns have gone on long enough, damaging already fragile businesses, creating untold misery to those in Aged Care and their families. There is no scientific study provided to show mask are helpful or locking people up actually works!

I believe in the outdated democratic principles like the need for public debate, transparency and an accountable government.

Yours faithfully  
Mrs Leigh Davidson
