I Michael Curry do not consent or agree to any extension of State of Emergency or increase in power for the Queensland Government.

I present my protest due to failed and inconsistent strategies resulting in loss of freedoms and rights as an Australian citizen from poor decisions made by the Queensland Government on reactions to the Covid-19, SARS2 Corona Virus. The decisions made have seemingly been counter intuitive and have employed an Alarmists strategy which has fed fear and provided little confidence to the populace, the electorates that are suppose to have representation and fair and responsible government.

Currently the cure is worse than the virus and it seems this Government has not learnt from its mistakes. The Government has failed to communicate to the People the science of this Virus and its Variants. Open and adult debate/discussions have not occurred between Government Leaders and more qualified Doctors, Epidimiologists, Immunologists, and scientists, and other experts of industries to any satisfaction or positive outcome.

I have no confidence in the Queensland Government through its powers in a State of Emergency to reasonably and effectively deal with this Virus through its use of PCR testing, Vaccines, lockdowns, mask wearing and travel between States.

My concerns as a citizen.

Yours sincerely,

Michael Curry
