**Subject:** No to further extension of Emergency powers in QLD!

Dear Premier

Two weeks to "flatten the curve" is about to blow out to 2 years!? And then what?

I OPPOSE this new bill vehemently and ask you to stop this game of cat and mouse. People are waking up to the fact that this "pandemic" is much more of a "plandemic" and we are rightly sick of it. We are not and never have been living in a State of Emergency. Obviously my understanding of an "emergency" is vastly different to that of the Governments.

If you are really concerned about our "health" how about all fast food outlets and bottle shops are "lockdowned" permanently??

That would be a start.

Please put an end to this farcical SOE extension bill that was tabled by Yvett D'Ath on 16 June 2021.

Regards  
Catherine Elek
