To whom it may concern,

I am wanting to strongly object to the possible powers being implemented by the Queensland government that include the ability to impose restrictions on the free movement of citizens, their ability to travel, conduct a business, attend school, church or sport, as well as the power to issue mandates on mask wearing, social distancing rules, the numbers of persons who can gather at any one time, and border closures.

This is against our human rights.

Personally I have been directly affected by Covid. Unemployment, loss of hope, way too many suicides with situations compounded by the ridiculous restrictions the government keep handing out for virus that has a 99.8% recovery rate. Of the 910 people that have died here in Australia over 700 of them were over 80 years old with pre-existing ailments. No one has died of Covid since February. The actions that build our immunity and strengthen community are being suppressed.

I question when 1255 people died of the flu here in Australia in 2017 the government did nothing, there were no restrictions in place.

910 people die from Covid over an 18 month period (607 PA) and the entire country is shut down, we are asked not to leave our own homes houses, requested to wear masks and physical distance.

Currently we are being coerced into taking medication that is untested with many people known to of died from having these untested MRNA experiment injected and it still doesn't make you immune to getting covid or passing it on.

I ask our government to take a long hard look at how they are handling this situation. Covid has been exacerbated out of all proportion and now our civil liberties trying to be taken away.

I look forward to hearing from you and may common sense and the truth prevail.

Sincerely Sherrie Yeomans.
