

6th July 2021

Submission:

Public Health and Other Legislation (Further Extension of Expiring Provisions) Amendment Bill 2021

We wish to make a submission objecting to the Public Health and Other Legislation (Further Extension of Expiring Provisions) Amendment Bill.

In our opinion the steps being taken are excessive.

It has become obvious that the fatality rate in Australia due to Covid 19 is extremely low.

Other countries are lifting bans and returning to normal choosing to live with the virus with little or no problems.

The damage being done by the extreme measures is becoming worse than the Covid 19 illness.

The recovery rate worldwide is over 98%.

It seems unreasonable that this bill should be extended past the current September date into April 2022.

State laws under this bill and other Covid related bills are inconsistent with the Australian Constitution, Australian Consumer Laws, Privacy Laws and other Commonwealth Laws.

Thank you for considering this submission.

Dave & Debbie Stubberfield
