**Subject:** NEW PROPOSED QLD BILL TO EXTEND EMERGENCY POWER TO 30 APRIL 2022  
**Date:** Friday, 2 July 2021 4:14:09 PM

---

I do not support this bill.

- QLD government has failed to use the last 15 months to improve hospitals / quarantine facilities or border issues
- Families are being kept apart - most compassionate requests are declined even though the stories are heart breaking
- QLD government is selling a lie by telling people we have been kept safe - we are living in a bubble. Government knows they have failed us and the only thing they can do to keep us safe is keep borders closed
- We need controlled border opening (international)
- We need a road map back to normality
- We need to know that compassionate and compelling exemptions will be just that - who is deciding what is compassionate and compelling?
- More consideration to be given to immigrant born Citizens / Residents who need to be reunited with family members
