Economics and Governance Committee
Parliament House
George Street
Brisbane Qld 4000

Reference the Tabling of: Bill to extend Public Health Emergency Response measures from 30 September 2021 to 30 April 2022

I would like to state, record and place my submission of my non consent to this. I do not agree with the extension and ask for this to be revoked.

Let it be known that I, Debra of the Fretus Clan, a living being of the living earth, do not consent to this Bill going through. You may reply to me via email [REDACTED].

I believe the current member Minister for health, Yvette D'Ath has no right to do this under the Original Commonwealth of Australia Constitution Act of 1900/1901, without a constitutional referendum.

Please note the people passed a referendum in 1946 stating clearly that the government provide medical services (but not so as to authorise any form of civil conscription)

Referendum 1946 CONSTITUTION ALTERATION (SOCIAL SERVICES) 1946

Question 1. Do you approve of the proposed law for the Alteration of the Constitution, entitled Constitution Alteration (Social Services) 1946?

On Question 1: The referendum was carried.

All six States recorded a YES vote. Nationally 54.39% of electors voted YES

As a result, a new paragraph was added to section 51 of the Constitution:

51 (xxiiiA) the provision of maternity allowances, widows' pensions, child endowment, unemployment, pharmaceutical, sickness and hospital benefits, medical and dental services (but not so as to authorise any form of civil conscription), benefits to students and family allowances;

The amendment included the clarifying statement (but not so as to authorise any form of civil conscription) Therefore, the People of the Commonwealth of Australia specifically forbade anyone imposing any form of civil conscription, force or coercion against the people to undergo any medical treatment, measure, or procedure. Here we are in 2021, where have the people been consulted on this bill, having been rushed so quickly I don't believe that many people have had a chance to even know this SOE extension is being put forward. I feel a great injustice is being done here WITHOUT a balanced, unbiased scientific and public debate.

I do not agree with the extension and ask for this to be revoked
