Subject: Against the proposed extension of Qld emergency powers

I wish to state that as a voter and resident of Queensland, I am whole heartedly against the the extension of emergency powers in Qld.

These powers limit the free movement and lively hoods of citizens and create more short and long term issues than they do good. It destroys businesses, and it deeply hurts families.

There is no justifiable reason for this power to continue.

I do hope that my views are considered when this Bill comes to be voted on.
