Committee Secretary

Economics and Governance Committee

Queensland Parliament

To the Committee,

I object to the extension of emergency measures currently in place in Queensland as proposed in the current Amendment Bill referenced above, including restrictions on travel, free movement, business conduct, church/sport/school attendance, borders, lockdowns and mask and quarantine mandates especially for healthy individuals. I object to the lack of transparency of the government passing this through the Economics and Governance Committee when this is a health related matter that is being managed in a way that is impacting more on economics than health. I object to the underhanded way this Bill has been presented, without debate or transparency to the public. I also object to the continuing unlawful mandates that breach the Biosecurity Act of 2015 and the 1988 Privacy Act of Australia.

It is time to follow the constitution of Australia and return this country to a democracy.

Yours sincerely,

Linda McUtchen
