To whom it may concern

I am writing to express my concern as QLD resident at the proposal to extend the State of Emergency Powers. When will this end?

We have suffered enough and we will never forget at the next election about all the QLD people who have lost their jobs and businesses over a gross overreach of powers.

How can we continue to live in fear of these powers hanging over our head? It is so hard to be aspirational and the rate of depression and anxiety is going up.

We are watching and we will never forget.

Concerned resident
