Public Health and Other Legislation (Further Extension of Expiring Provisions) Amendment Bill 2021

I strongly object to the further extension of these legislative measures for the following reasons:

- By any sane definition, there is currently no pandemic in Australia.
- The dangers of Covid-19 have been grossly exaggerated by the Government, by health authorities, and by most of the mainstream media.
- World renowned experts who have spoken out against the measures being taken to combat Covid-19, and expressing grave concerns about Covid-19 vaccines, have been relentlessly censored by governments, the mainstream media, and 'Big Tech.'
- The measures that have been put in place should only ever be implemented by governments when there is a **real** 'state of emergency' impacting on citizens.
- Any further extension of these 'emergency powers' is blatant overreach of government powers, which amounts to tyranny, and has no place in a supposedly free country.
- It has become abundantly clear to any rational, clear-thinking Australian citizen that these emergency powers have been put in place in order to control us, and coerce us into accepting an inadequately tested, experimental 'vaccine,' which is proving neither safe, nor effective, nor necessary.
- This is a crime against humanity which goes against the Nuremberg Code: <https://www.nejm.org/doi/full/10.1056/NEJM199711133372006> and the Helsinki Declaration: <https://www.med.or.jp/dl-med/wma/helsinki2013e.pdf>. Particularly since the government has banned the use of proven safe and effective preventatives and treatments, such as Ivermectin, and Hydroxychloroquine given with zinc. The Federal and State governments, the TGA, and Chief Health Officers are all culpable.
- Surveillance of citizens through technology such as the QR code check in App is, at the very least, an invasion of privacy. It is open to abuse, and the government's record of protecting data has been poor in the past. The same goes for 'Vaccine Passports,' which will lead to divisiveness and discrimination. These sorts of measures are what we've come to expect from the Chinese Communist Party. They have no place in a free society.
