**Subject:** International Protocol

ATT: All sitting members of the QLD Parliament,  
My name is Dylan Wilson, currently living on [REDACTED]  
[REDACTED]

As creator of the Peoples Treaty and with authority vested in me as Land Law Marshal by Senior lawmen and in alignment and supported by our Circle of Elders recognised across this continent, I am hereby authorised to give you the following notice.

It is being and has been brought publicly to the attention of this parliament that your claim to jurisdiction has been denied without rebuttal for 12 months due to a complete absence of National Sovereignty and right to jurisdiction of Law.

In receiving this notice your parliament and the general public are now aware of your lack of jurisdiction and the following orders must be adhered to in alignment with International protocols surrounding National sovereignty.

Any failure to do so will result in all assumptions of jurisdiction being used as evidence in a publicly transparent Internationally recognisable proceedings for the ongoing complicity in Genocidal occupation of 369 Sovereign Nations.

The orders are;

- \*Immediate cease and desist of all restrictions pertaining to the Covid 19 falsehood
- \*Immediate reopening of the assumed borders of your assumed state
- \*Public disclosure of the Covid 19 falsehood and transparent admissions of deceit from each of your members of Parliament included in each of your resignations from assumed public office.
- \*Full cessation of assumed government authority to the free people with instructions for them to prepare for the Peoples Treaty.

This is non negotiable.

Any action contrary to the orders written above will be seen as complicity and publicly recorded as such.

I appreciate your compliance and understanding in this matter and pray the people are lenient in their choices to find accountability.

Sincerely  
Land Law Marshal Dylan Wilson.
