

Dear Committee,

\*I am over 70. I do NOT support the extending of the state of emergency or any of its said measures.

\*I have looked after my own health all these years, using Drs, physio's, chiro's and anything one else who could give me advise that helps.

\*I have never asked any one to do anything or not do anything for " MY health's sake".

\*Now I am asking you to stop locking down our state to protect the vulnerable which it seems I am one of.

Stop demanding check-in's at every place we go.

When we have a flu out break we all use common sense, we should be doing that for this.

\*We have had more deaths on the road then we have from covid19 but we don't stop the state over them.

\*It's time we stopped being a nanny state and opened up fully and told the vulnerable like me and others to take their own precautions.

Thank you for you time,

Grace Field.
