Subject: New Proposed Old Bill Extends Emergency Powers to 30 April 2022

To whom it may concern

Hereby I wish to express my support for Parleмент to close Queensland borders to all foreign nation nationals (which includes, de facto relationships, partners) to travel outside the borders of Queensland.

I also in support of closing our borders for all Australian citizens who which to travel outside the borders of Australia for non-compassionate reasons.

I am in full support of wearing face masks in public areas, social distance, and the lock down of Queensland when needed.

My reason for supporting our ruling party in taking such action is the well-being of our citizens, we have been in this situation for a few months, why do we really want to spoil the broth just to open freely our borders. I feel safe in our State because I know my government cares for my loved ones and me. My Partner is not with me (part for the past 24 months), is seeking an exemption to enter Australia, however, we have made a conscious decision that the safety of our loved ones and our fellow citizens come first, although he resides in the USA and is fully vaccinated, vaccination has not proven at this stage that you cannot be affected by the virus, evidence has proved that symptoms will not be so harsh and the possibility of being hospitalized is limited.

The priority is to bring back Australian citizens, think it will be selfish of us to seek preference before an Australian Citizen.

I can only plea to Parleмент to extend the emergency powers as long as you can because we don't want to be in a situation like Isreal where most of the population are vaccinated. They even have to wear masks in-house.

Yours faithfully

A concerned

Australian Permanent Resident of Queensland

Xolo Ze Perreira
