Subject: Proposed bill to extend emergency powers till 2022

To whom it may concern.

I strongly disagree with the proposed extension of emergency powers by the QLD government. We are not in a state of emergency.

The state of Queensland is not comprised of people that need to be ruled by government. The government of Queensland is elected by the people of Queensland to SERVE the people of Queensland, not to dictate, or mandate draconian rules and regulations that have done and continue to do more harm than good.

Please start to listen to the people of Queensland. We are not your servants.

Yours sincerely

David Deane
