

07/07/2021

Dear Committee for the Bill with a short title of Public  
Health and Other Legislation (Further Extension of Expiring  
Provisions) Amendment Bill 2021(Bill),

I must extremely object to the extension of this Bill.  
It is a total over stepping of the Rights of the Sovereign  
People of The Commonwealth Of Australia.

This bill goes against:

1. Our Constitution Section 51 23(a) No form of Civil  
Conscription to do any medical or dental against my will.
2. the Bio Security Act 2015 Section 60 and 61,
3. the Privacy Act 1988 Section 94H

I cannot believe that this Government is trying to remove all  
rights from its Sovereign people.

This Covid 19, which is not a pandemic, has been used by  
this government to restrict movement and inflict terrible directives  
that are illegal and unconstitutional.

To now think ,that you think ,you will be able to jab  
everyone with an experimental gene therapy, disguised as a  
“vaccine” when there are therapeutical treatments which are cheap  
and work available, is beyond acceptable.

I am a free living woman and I have rights. This bill will  
remove several of my rights and that is unconstitutional!

I do not wish to live in a Communist Country where I have  
nothing and my rights are removed !

I DO NOT CONSENT !

To bring UN troops into Australia under the guise of a  
pandemic is beyond disgusting abuse of power. We do not have a  
pandemic in this country but we certainly will have many people  
being harmed and killed by these “Vaccines” that are trying to be  
conscripted onto everyone!

I object to the power grab of this Bill.

I DO NOT CONSENT

Regards,  
Deborah Cohen
