Notice of Demand

Dear Committee Secretary

It is My Will that you end the state of emergency within Queensland and never try to extend it ever again.
I'm sure that you know very well that this virus has done minimal harm to the Australian population other than the malicious injustices that the government has enacted on us all!
And I'm also sure that you know to have a lawful state of emergency the reasons must be demonstrably justified and it is very obvious that you have no justifiable reason to perpetrate this on us all.
It is my will that you cease and desist with the bill extending the public health emergency response measures from 30 September 2021 to 30 April 2022 and rescind the state of emergence in Queensland immediately.
