Subject: Public Health and Other Legislation (Further Extension of Expiring Provisions)
Amendment Bill 2021

Good afternoon,

My name is Anthony Kingdom and I am writing in response to the extension of this bill.

It is my belief that the extension of the bill should not be granted due to the negative impact that this piece of legislation has had on the economic, social and health of our communities. As we have seen over the last twelve months this legislation has caused economic upheaval to many business sectors, has cause rises in domestic violence and generally interrupted live in this country. As this 'pandemic' isn't going anywhere I believe it is time we acted as many other countries and put in place strategies to live with this rather than use fear mongering to manipulate the population.

We have also seen the right of protest removed and restricted under these current conditions which has possible swayed public and parliamentary opinion as these rights have been restricted.

I think it is time to allow this state to return to normal and allow the freedoms we have had to be restored.

Anthony Kingdom
