Amendment Bill 2021

We are writing to voice our opposition to the extension of emergency powers to 30th April 2022. It is becoming abundantly clear that the whole Covid agenda is based on a fraudulent PCR test. This is at the root of everything.

The inventor of the PCR test Kary Mullis as well as Anthony Fauci are on record saying that anything over 35 cycles virtually guarantees a false positive. This is on the health NSW website

Generally, the number of cycles run by the PCR systems is 45, however this can vary depending on the machine or assay used. Generally the cut-off or threshold is set at a Ct of 40.

This means all "cases" are fraudulent and all restrictions should cease immediately. Mass injection with an experimental vaccination that has already caused deaths should be halted until further studies done, there is now time as there is no pandemic.

We fail to see how this charade can continue to April 2022. Legal cases are going on all over the world and it will only take one successful case for the house of cards to start to collapse. One such case is from Reiner Fuellmich and his team, his lawsuit is creating waves world wide. He has solid evidence of such fraud. I urge you to be on the right side of history or you will evidently be also caught up in legalities. I hope you do what is right.

Regards

Melinda and Christopher Borg
