Dear committee secretary

Economics & Governance Committee

I strongly object to any extension of 'state of emergency' orders in Queensland. What Queensland need is true information on how to be healthy – good organic food, sunlight, fresh air (not masks), community and techniques on how to de-stress and recover from depression which many are suffering due to covid restrictions and lockdowns.

Stop the State of Emergency orders and state to focus on what is the best interests of the people of Queensland

Regards

Leonie Shanahan
