Subject: Proposed Extension of Emergency Powers to April 30th 2022

I am writing to express my absolute opposition and NON CONSENT to the Queensland health minister's proposal to extend the current state of emergency to April 30th 2022.

This farce has continued for 18 months now with people's lives and livelihoods destroyed not by a deadly pandemic but by the draconian actions of the Queensland Government.

How the government could possibly justify continuing this charade when the PCR tests being used have proved to be notoriously unreliable giving 97% false positive results and NOT designed for the purpose they are being used for.

The mask mandates are unconstitutional and also proven to be useless in protecting from either catching or spreading germs.

There is overwhelming evidence that wearing these masks is actually dangerous to health but still the government persists in mandating them. WHY?

The lockdowns; also proven to be unnecessary as stated by the WHO among many others.

The death rate from the virus in Australia is ZERO (as stated publicly by Federal health Minister Greg Hunt)

The death rate world wide has been continually down graded and there is now ample evidence that this so called pandemic has been nothing more than the normal flu season rebranded.

More people have died from the experimental vaccine than from covid. FACT

All this SOE has achieved is to destroy the economy, destroy small business and livelihoods and steal our freedom.

The QR App mandate is also an invasion of privacy and unconstitutional.

Much of what has been done in the name of this pandemic is unconstitutional and some will most definitely qualify as crimes against humanity.

All Australian governments, federal and state have exceeded their authority and failed miserably the people of Australia.

The Queensland government has betrayed the people of Queensland disgracefully and instead of extending the SOE they should end it immediately.

I urge you not to vote in favour of this proposal

Yours sincerely

Lyn Stewart
