---

My submission on the NEW PROPOSED QLD BILL TO EXTENDS EMERGENCY POWERS TO 30 APRIL 2022

It is time to trust more - you are simply not going to control covid out of existence

Businesses need to be able to trade

People need to be trusted to make their own decisions regarding their health

We need free movement of citizens including school, church or sport

Masks don't work!!!!!!

There are drugs that work on covid

Start working with reality before you blow any election advantage

Thank you for your time

Megan Knight
