To whom it may concern,

I am emailing as to vehemently oppose the extension of the State of Emergency in Qld. The restrictions these enable against citizens is unjust and undemocratic, stripping us of our inherent freedom of movement and rights.

The contemplation of an extension is beginning to look ominously permanent, which will only increase the level of suppression and inhibited freedom us citizens are experiencing.

Enough is enough - These lockdowns and restrictions are doing significantly more harm than good. They are creating greater division and hatred in society, as well as damaging businesses', people's livelihoods and childhoods. It is ridiculous to call a State of Emergency for this few cases. More deaths will be caused through the psychological and economic repercussions of an extension of this State of Emergency.

Let us not live a life of fear, hiding in a lockdown because people have been convinced to be so scared to go outside or talk to their neighbour. Live for the purpose of actually living life, and let all citizens do the same.

Thank you,
Tia Mallinick
