Subject: bill to extend
Date: Tuesday, 6 July 2021 4:37:54 PM

To whom it may concern,

I Paul Anthony ODonnell would like to lodge my objection to the bill before the government to extend the state of emergency . In order to enforce restriction of movement , mask wearing etc. The adverse effects this having on peoples mental health , financial stress and emotional turmoil for people not being able to see loved ones far outweighs the effects of covid 19. Less than 2 percent of people world wide die from the virus less than the common flu . The measures are far too extreme proportionately. Its like trying to kill a fly with a sledge hammer, your destroying all the walls for the sake of a fly.

Kind Regards

Paul
