Subject: RE: NEW QLD BILL EXTENDING EMERGENCY POWERS
Date: Tuesday, 6 July 2021 4:41:18 PM

I, as a born and bred voting Australian, wish to OPPOSE the new bill extending public health emergency response measures until 30/4/2022.

I believe that this warrants public debate by we the people of Australia.

In my eyes the whole covid scenario has been one big confused muckup, with so many people losing jobs, businesses, livelihoods, lives taken by suicide, people becoming sick from stress, because of the bullying from the government. It has been extremely sad and frustrating to have watched it all unfold. A virus with about a 98% survival rate if one by chance "catches" it. C'mon, we arnt all stupid.

Nothing made any sense from day 1.

I could go on and on but hey, just little old Linda here, and what would she know. You would be surprised.

Do the right thing and stop the lockdowns, stop the fines, stop the bullying.

Had my say.

Cheers, Linda Chaplin
