Subject: Do NOT CONSENT of extension
Date: Monday, 5 July 2021 5:19:48 PM

To the Committee,

This is my submission of the Extension of Emergency Health QLD Bill.

I do not consent, or support this Extension. I decline and condone anymore restrictions put on us the people of Australia, and specifically the people of Queensland. We have had enough of the tyrannical, dictatorship and abuse of our current situation here. We the people refuse to be abused by politicians trying to push their agenda onto us, trying to force Gene Therapy labelled as a Vaccine for a Virus that has a Recovery rate of 99.7%, with little safety data and evidence to support its fundamentally damaging our immune system and health, for enforcing us with mandatory masks that are not law, that are actually causing more damage then protection (there are also thousands of doctors, scientists, immunologist, and virologist whom support these claims worldwide). Yet we are been fed propaganda on the News, scare tactics, we are been abused by Police, and neglecting small businesses and ruining the economy. We are sick and tired of this. 18 months on and you are trying to take away Medical Freedom. You are illegally breaching Many Acts and the Commonwealth Constitutional law with these doctrine demands. Please support us the people of the State.

I as an Australian Citizen do not support any of the Emergency Covid measures. It goes against our Human Rights.

Regards,

Jennifer Zamora
