**Subject:** Letter of Submission regarding Further Extension of Expiring Provisions  
Amendment Bill 2021

Dear Committee Secretary (Economics and Governance),

My name is Nicole Osmak and I am writing this submission to state my strong rejection of the Bill which aims to further extend the Emergency Orders in Queensland in regards to Covid-19.

- These increased powers given to particular groups, especially to the Qld Government and the Health Minister, were termed for 'emergency' reasons, however Covid-19 does not warrant this label. An individual who has contracted the Covid-19 virus has more than a 99.9% chance of surviving it.
- The astronomical damaging effects of Lockdowns, Quarantine, Mask Wearing and other unnecessary enforcements, cannot be ignored and needs to be urgently addressed. In the past 6 months the Kids Helpline alone has reported an increase in attempted suicide by 184%! Please see article published below:  
<https://www.goldcoastbulletin.com.au/breaking-news/attempted-suicide-rates-among-victorian-teenagers-soar-by-184-per-cent-in-past-six-months-kids-helpline-reveals/news-story/db9d5136075a7c7edf4750a0391b0653>
- There has only been 1 (one) reported death from the Covid-19 virus in Australia this year yet many hundreds of deaths and damage as a direct result from associated negative effects from Lockdowns, Covid-19 Vaccines, Mask Wearing, Business Closures and so forth. The risks, and clear negative effects of these measures far outweigh the miniscule risk of dying from Covid-19 in Australia.
- I ask that we immediately revoke any extension to these flawed and harmful Emergency Orders and begin to act according to the risks versus benefits and begin to create legislation which aims to repair and restore Australia and Australians back to prior to Covid-19 and give Australians the rights which should never have been taken from us.
- The statistics are showing that since the introduction of these Emergency Orders there has only been an increase in deaths NOT from Covid-19 but from the affects of the Emergency Orders on Australians, including suicide. Therefore this clearly is to be urgently ceased. The adverse reactions to the Covid-19 experimental Vaccine is 33,807 as of June 2021 and 335 deaths following recent Vaccination. See the TGA report here: <https://www.tga.gov.au/periodic/covid-19-vaccine-weekly-safety-report-01-07-2021>. These numbers speak for themselves.

Thankyou for your time and I would appreciate a response in due course.

Yours Sincerely,

Nicole Osmak
