Subject: Submission re Public Health and Other Legislation (Further Extension of Expiring Provisions) Amendment Bill 2021
Date: Wednesday, 7 July 2021 2:20:04 PM

Dear Committee Members,

There are many conflicting views and sources of information re Covid, but anyone with critical thinking skills knows there are layers of lies being fed to the unsuspecting majority to maintain the scamdemic emergency, with devastating ulterior motives.

In case you're not aware, adverse reactions to Covid "vaccines" are already being falsely blamed on "variants" to justify emergency extensions. Australian doctors are prohibited from reporting true adverse reactions if they occur 2 weeks or more after injection. These 2 factors alone are blatantly dishonest and criminal.

Covid "vaccines" (extremely dangerous, experimental gene manipulation, not vaccines by any definition, except for liability evasion) are KNOWN NOT to prevent Covid infection OR transmission, so it is a blatantly ridiculous lie for Scott Morrison to claim that getting the majority vaccinated will enable Australians to return to "normal". These are governmental crimes against humanity and any person, including each of you, who ignores, disregards, supports or enables Covid lies is complicit in not only violating human rights, but also genocide.

Please represent us with integrity, honesty and courage, by first making yourselves aware of the truth behind the lies, as millions in other countries are now doing. You may be surprised at how many Australians fully understand and share this certain knowledge. Please stop violating our human rights, devastating lives and livelihoods based on misinformation from blatantly corrupt global organisations (WHO, CDC, WEF, IMF etc) and their complicit minions who are deliberately jeopardising the future of humanity.

Links below provide good overall summaries of relevant factors (references/source links included) and hereby stand as lawful notice to government of critical information essential for making informed decisions on our behalf.

I'm happy to discuss further in confidence or share pertinent reference material anytime.

In hope,
One of many desperately concerned Australians
