Dear Sir/Madam

We strongly oppose the extension of the Public Health Emergency Response measures from 30 September 2021 to 30 April 2022 and The Public Health and Other Legislation (Further Extension of Expiring Provisions) Amendment Bill 2021 which extends a range of emergency measures, including the extraordinary powers of the Chief Health Officer, Dr Jeannette Young.

The appalling economic mismanagement of the Palaszczuk government has forced our state of Queensland into a very vulnerable position that will take ourselves, our children and our children's children many years to pay back.

This in turn directly impacts our national security and leaves us open to take-over from our enemies.

We do not consent to the abhorrent and blatant use of emergency powers by the Queensland Palaszczuk Government for a "virus" that is no worse than the influenza that we cope with every year.

The mind-numbing propaganda that has been used to perpetrate an unreasonable fear into the people of Queensland coercing them to take part in a trial, not a TGA approved vaccination program, without their full consent is paramount to marching them into the gas chambers of Germany during WW2! Using the medical fraternity to issue these illegal vaccines by paying them exorbitant amounts of money is a crime and turns one sector of the community against another. Not to mention turning vaccinated people against the unvaccinated!!

As for Dr Jeannette Young being the only medical advisor for our state, this is not how to run a true pandemic! Surely there should be a panel of qualified specialists and immunologists who advise the Premier! This looks like a set-up against the people of Queensland and certainly appears like a badly run agitprop.

We do not consent to the powers that include the ability to impose restrictions on the free movement of citizens, their ability to travel, conduct a business, attend school, church or sport,

as well as the power to issue mandates on mask wearing, social distancing rules, the numbers of persons who can gather at any one time, border closures, area lockdowns, quarantine mandates, the tracking and tracing and storing of our personal information by QR codes which leaves us open to cyber-attacks.

It would be beholden to you to know the of penalties for treason against the Australian people and for breaking the Nuremberg Code 1948.

Yours sincerely

Kylie Drury
