Submission -

I oppose the further 'extension of time' for the Covid 19 emergency. A doctor said recently the virus is almost gone and that viruses do burn themselves out. We have seen this over time ourselves so do not foresee that this extension would be of importance in the future. Our morgues aren't full and I hear we have 1 death in 6 months which shows it is on the way out. It is time for Australia to get back on track again.

I believe that Quarantine should be paid for or subsidised by the government as the ordinary family do not have the means to pay for a two-week enclosure. Also, people should be able to Quarantine at their own home after being checked out so that it would be a safe and secure environment for them and much better for their mental health.

About elections - If the government can allow for people to sit next to each other at a football games then I see no problem with the voting process to go ahead as normal.

To add to this, I believe that it is against the law to make mandatory the QR Code as this is taking away Queenslanders' privacy and rights to freedom. This should only be done by a REFERENDUM as said by a lawyer from Civil Liberties.

Thanking you,

Mrs. Patricia Steffens,
